

**The MedicalCapital**  
CLEVELAND

# GREATER THAN THE SUM OF ITS PARTS

The Medical Capital brings together the region's clinical, educational and research institutions; supportive philanthropies; economic development engines and an abundant workforce.

As it promotes Northeast Ohio as a leader, it offers a platform to connect, to collaborate, and to think of the region's biomedical and healthcare assets as a *single entity* that's greater than the sum of its parts.

This thinking has encouraged remarkable investment and growth.
